Words from our President

Our scroll saw club had a most successful appearance at Imaginology. We were fully staffed each day with two saws in continuous use and over a hundred kids took home a personally cut project. We should have some future members in that group. We even had some 4H kids from pre-COVID days come see us.

Our next big activity is the Tustin Chii Cookoff. This is important for the club as it is our primary money-maker for the year which lets us buy supplies for the group. Sign-ups are going well, but we still need some more support. Please help!

At the April meeting the topic was Spiral Blades. Notes for that are on the club web site. The next program will discuss Corian and considerations involved in cutting patterns in it. A future program under development is sizing wood/lumber to dimensions for scrolling. What can you teach the group? And, what would you like to have discussed? Tell us at the next meeting
